

Chewing Gum, Candle Wax, Blu-tack & Plasticine

For larger areas consider the
use of Prochem's Bazooka Gum
Remover Machine

You will need:

Scrape off the excess with a
blunt edged knife.

Perforate surface using a
fork.

Apply Prochem's Citrus Gel.

Leave for 2 minutes.

Remove softened gum with
blunt knife.

Any remaining residue can
be wiped away with Solvall
Spotter applied on a damp
sponge or towel.
